

## Part One

$$1 + 2 + 4 - 2 - 2 + 1 - 2 = 2$$

$$3 - \frac{1}{2} + 1 + \frac{1}{2} + 4 - 2 - 3 = 3$$

$$4 + 4 + 2 - 6 - 1 - 2 + 3 = 4$$

$$\frac{1}{2} + \frac{1}{4} + \frac{3}{4} + \frac{1}{2} - 1 + 4 - 3 = 2$$

$$1 + 2 + 6 - \frac{1}{2} - 1\frac{1}{2} - 1 - 2 = 4$$

$$3 + 1 - \frac{3}{4} - 1 - \frac{1}{4} + 2 - 1 = 3$$

$$\frac{1}{2} + \frac{1}{2} + 1 + 4 - 2 - \frac{1}{2} - 1\frac{1}{2} = 2$$

$$1 + 1 - \frac{1}{2} + \frac{1}{2} + \frac{1}{4} + \frac{3}{4} + 1 = 4$$

$$2 + \frac{1}{2} + 1\frac{1}{2} - 1 + 1 - 2 - 1 = 1$$

## Parts Two and Three

All the answers can be found in the centre of the grid

0	2	4
4		0
3		3
0	2	0
	0	
	4	
	0	
	1	

The final answer is:

Ludwig Van Beethoven wrote 9 complete symphonies
