Part One

The answers to the anagrams are:

1) IGANIPAN = **PAGANINI**

2) RALEG = **ELGAR**

3) AHOKTCIYSVK = **TCHAIKOVSKY**

4) NOSIRSI = **ROSSINI**

5) NKONWUN = **UNKNOWN**

6) TRCEBUHS = **SCHUBERT**

7) DAHYN = **HAYDN**

8) YOLAKD = **KODALY**

9) ZIALEBN = **ALBENIZ**

The name of the Ballet is
PETRUSHKA

The name of the composer is
STRAVINSKY

Part Two

X = **16**   Y = **21**   Z = **1**

Part Three

B = **8**

Part Four

I know that A MAJOR has 3 sharps and G MAJOR has only 1. If I were to add my two answers together I would have 4 sharps and I would be able to name the MAJOR key-signature whose RELATIVE MINOR is C# MINOR. If I took the RELATIVE MAJOR of the answer above E MAJOR and subtracted it from the key signature of D MAJOR. Of course D MAJOR has 2 sharps, I would have the answer for my next clue in this puzzle.

$$C = 2$$

Part Five

$$X + Y + Z = A - B = 30 \div C = ?$$

$$16 + 21 + 1 = 38 - 8 = 30 \div 2 = 15$$

Dimitri Shostakovich wrote 15 complete symphonies
