

The Treasure of Long Island

If you are lucky enough to find this note and 'safe'...

A safe was washed up on the coast of 'Long Island' in the Indian Ocean. Attached to it was a metal plate with a message engraved. It read...

**Who ever finds this treasure safe is welcome to keep the contents
if they can discover the combination.**

On the top of the safe there was a little hatch which once opened revealed some papers. I think they might be clues to the combination...

Can you solve the puzzle?????

There are six parts to this puzzle. The instructions are explained on each part.
